LINE

DEFY™

DynaMAXX Line Defy™ Ingredients and directions:

DynaMAXX Line Defy™ ingredients:

Purified Water, Sodium Silicate, Magnesium Aluminum Silicate, Propylene Glycol, Sodium Carboxymethylcellulose, Collagen, Phenoxyethanol, Ethylhexylglycerin.

DynaMAXX Line Defy™ is not tested on animals.

How it works:

A thin layer of Line Defy™ under and around eyes, forehead, cheeks – or anywhere facial lines and wrinkles are visible – will coat the creases that form facial wrinkles. As it activates, it begins to shrink, gently tightening and smoothing the surface of the skin. Within seconds, the years will begin to disappear right before your eyes. Skin will appear firmer, smoother – and years younger.

The appearance of lines and wrinkles will continue to decrease for several minutes after application, although the majority of improvement will be seen in about 90 seconds.

Directions:

Begin by cleansing face. Pat dry. Moisturize if it is part of your normal routine. Once moisturizer is completely dry, apply a small drop of DynaMAXX Line Defy™ by patting gently into line-prone areas with fingertip. Allow to dry thoroughly. If necessary, blend edges by patting gently with moistened tissue. Apply makeup as usual. For best results, use only water- or mineral-based foundation.

For additional application tips, see the DynaMAXX Line Defy™ FAQs.

In just 90 seconds, you could look 10 years younger!

- Cleanse face and pat dry.
- Apply moisturizer if desired.
- Allow moisturizer to completely dry before applying DynaMAXX Line Defy™ .
- With fingertip, apply a small drop of DynaMAXX Line Defy™ by patting into line- prone areas. You may very gently massage serum into deep creases in application areas.
- Allow DynaMAXX Line Defy™ to completely dry 3 to 4 minutes before applying foundation.
